PROFESSIONAL EXPERIENCE

Senior UI Developer (12/2018)   Persistent Systems Limited., Nagpur, India

Technical Scope: Python, HTML5, CSS, JavaScript, MySQL, Ajax, Bootstrap, jQuery

Appointed to utilize numerous frameworks, web application tools, and user interface tools to test and validated websites for cross-browser compatibility; quickly identified errors and debugged applications. After joining company I got opportunity to come to Canada to upgrade my knowledge so I moved here.

Key Achievements:

- Studied some rigorous process for cross-browser testing in IE, Mozilla, and Chrome, which corrected layout issues.

Web Developer (1/2018 – 9/2018)   Iuris Technology and Services, Nagpur, India

Technical Scope: PHP, MYSQL, JavaScript, CSS, HTML, Ajax, OpenCart, GoDaddy Server and Database Management

Key technical contributor to cutting-edge web application projects capable of managing contents on their websites and online platform to reach their customers. Collaborated and liaised with manager and clients to identify project objectives, needs, and technical requirements. Accelerate project progress through excellent communication, technical skills, and diligent research.

Key Achievements:

- Developed Web applications that can manage contents on their web portal with easy clicks just like CMS.
- Developed websites to be compatible with top browsers over different devices with all required functionality.
- Unmasked issues and identified areas of improvement in existing programs; successfully modified programs to address and resolve application issues.

Web Developer (7/2015 – 11/2017)   Gyan Katta, Bhopal, India

Technical Scope: HTML5, CSS, Moodle, Bootstrap, Adobe Photoshop, cPanel, JavaScript, Google Analytics

Critical collaborator and developer for generating websites with clean and intuitive interfaces to enhance user experience. Regularly utilized numerous web development platforms, open source content management systems, and editing tools.

Key Achievements:

- Engaged in productive cross-functional collaboration with clients, designers, and fellow developers to identify and fulfill client needs and requirements.
- Provided end user training for maintenance and update of website.
- Redesigned and created attractive and functional customer websites in compliance with project requirements and objectives; analyzed website traffic and metrics using various tools.

SOME PROJECT HIGHLIGHTS

Online Selling Website for Property Broker   11sqft.info

Technical Scope: PHP, JavaScript, MySQL, HTML, Ajax, CSS, CodeIgniter, MySQL, PhpMyAdmin, Admin Panel

Made a web application for Property broker which allows their customer to search for their dream property online and book an appointment with the company. The website has an admin panel that allows broker to manage content on clicks. It also manages all the agents attached with the company to track their customers, commissions, and many more by signing in by their credentials.
